ik CLASSROOM MANAGEMENT

Aligned with the pedagogical principles, **ik Classroom Management (ikCM)** arrives to revolutionize how the 21st century teacher and student engage and build knowledge. With a simple and intuitive interface, ik Classroom Management represents the technological implementation of a classroom adapted to the current pedagogical challenges.

Through monitoring, interaction, control, management and diagnosis' tools, it motivates and engages student's attention, **while maintaining focus on meaningful learning processes.**

ikCM is **the award-winning, market-leading classroom software solution** that assists teachers with a wealth of dedicated assessing, monitoring, collaborating and controlling features to guarantee they can get the very best from their ICT equipment.

Rising to the challenge and requirements of the modern classroom, **ikCM** provides the ability to orchestrate and deliver lesson content, work collaboratively and monitor student devices, ensuring complete student attention and focus is maintained at all times.

ikCM is a collaborative classroom-learning solution that enhances overall **classroom productivity,** fostering interactivity and collaborative student work, and enabling teachers to access tools to organize, send and receive lessons, manage assessments, and control student activity.

Control and manage the classroom

Promote collaborative work and communication

Improve students' engagement
